

REMARKS

As discussed initially, due to an error in placement of portions of the description pertaining to the invention in the "Background of the Invention" section of the application by applicants' original attorney, applicants' present attorney has requested herein that the subject matter which had been mislocated be relocated to the "Detailed Description of the Preferred Embodiments" section of the application.

The mislocated paragraphs have been deleted from the "Background of the Invention" and have been inserted directly after the title: "Detailed Description of the Preferred Embodiments", as a lead in to the detailed discussion of the invention. Although this places some of the definitions which are intended to apply throughout the application after the "Summary of the Invention", it makes clear what is considered to be part of the invention and what is considered to be background leading up to the invention. The relocated paragraphs have been copied word-for-word, as will be apparent to the Examiner in reading the present amendment. No new matter has been added to the invention.

If the Examiner has any questions or suggestions about the present amendment, he is invited to contact applicants' attorney at the telephone number listed below.

Respectfully submitted,

A handwritten signature in cursive script, reading "Shirley L. Church", is written over a horizontal line.
